Network Description

This subsection covers the following topics:

- Network Description Options
- Displaying the Network Description (short)
- Field Descriptions: Network Description

Network Description Options

The two Network Description options on the Reporting Menu allow you to display network and job online documentation.

- **Network Description (short)**
  Displays information on networks and jobs as defined on the master data base, including scheduling information, prerequisites and end-of-job checking and actions.
- **Network Description (detailed)**
  Displays the same information as the 'short' version, but includes all prose descriptions defined at the network, job or event level using the Editor facility.

Displaying the Network Description (short)

▶ **For example, to display the Network Description (short)**

1. Type its option number in the Option field on the Reporting Menu. Press Enter.

   A window opens in which you can enter the owner and the network for which to display information:

```
 02.11.01                 *** Entire Operations 4.1.1 ***              17:21:06
 Owner EXAMPLE                      Reporting Menu                   User ID GHH
 -------------------------------------------------------------------------------

      Reporting Menu

                       +----------------------------------------------+
   1  Log - Terminated J !                                            !
   2  Log - Abended Jobs !        Network Description (short)         !
   3  Log - Jobs not sta !                                            !
   4  Accounting Data    !  Owner   ==> EXAMPLE___   * Select  Blank All !
   5  Network Descriptio !  Network ==> *_____   * Select  Blank All !
   6  Network Descriptio !                                            !
   7  Network Job Flow D !  PF3 End                                   !
   8  Schedule of Jobs    +----------------------------------------------+
   9  Network Activation Summary
  10  Network Schedule Overview

 Command => 5_____
 Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
      Help        End                                                  Menu
```

2. Enter the owner and network in the selection window. Press Enter.

Field Descriptions: Network Description

Meaning of the input fields:

Field	Description
Owner	Display networks belonging to this owner. Press Enter to select all owners. Enter an asterisk * and press Enter to display a selection list of owner names, or enter XX* and press Enter to list owner names with prefix XX.
Network	Network name. Press Enter to select all networks. Enter an asterisk * and press Enter to display a selection list of network names, or enter XX* and press Enter to list network names with prefix XX.

A window opens at the bottom of the screen:

```
   6  Network Descriptio !                                           !
   7  Network Job Flow D !  PF3 End                                  !
   8  Schedule of Jobs   +--------------------------------------------+
   9  Network Activation Summary
  10  Network Schedule Overview
                         +--------------------------------------------+
                         !                                            !
                         !       Send Output to Printer ?  N (Y/N)    !
                         !                                            !
 Command => 5_____ +--------------------------------------------+
Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
     Help        End                                             Menu
```

3. If you enter **Y** and press Enter, output is printed.
   If you enter **N** and press Enter, the Network Description appears on the screen.

   The network information appears on your screen or is printed in the following format:

```
 02.11.01                    Entire Operations 4.1.1                   17:23:17
 Network  TESTNET                Network Documentation         Owner   GFR
 Job
 ------------------------------------------------------------------------------
 Description   :
 Execution Node: 148

 --------------             --------------------
 Earliest Start: 09:15:00
 Latest Start  : 11:00:00
 Deadline      : 12:30:00
 ****

 ... Job Description on the following Pages

 Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
            End                                                   Menu
```

The information reflects the network parameters as defined in the Network Maintenance facility.

4. Press Enter to display information on the first job in the network.

Job information is presented in a format similar to the following:

```
 02.11.01                    Entire Operations 4.1.1                    17:23:43

 Input Conditions
 ----------------

 Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
               End                                                         Menu
```

The information reflects the job parameters as defined in the Job Maintenance facility.

5. Press Enter to display the next page of information.

You can display all job definitions for the specified network. If you selected the Network Description (detailed) option, the long prose description is also displayed.

6. Press PF3 (End) to return to the Reporting Menu.
